Software Engineer — Rust / TypeScript / WASM ·
media & subtitle systems

Chiang Mai, Thailand · al@altqx.com · +66

93-420-2741

github.com/altqx · altqx.com · TOEIC 890 (B2)

SUMMARY

Open-source engineer building high-performance subtitle and media renderers in Rust and TypeScript/WASM. Maintains libbitsub (~5,000 npm downloads/month) with WebGPU/WebGL2/Canvas fallbacks, worker parsing, and Video.js/Shaka/hls.js/React adapters, plus akarisub (libass in the browser) and rassa (experimental Rust ASS stack with a libass-compatible C ABI). Seeking WFH or Chiang Mai onsite roles in systems, media, or product engineering.

EXPERIENCE

Independent software engineer / open-source maintainer · 2025–present · Chiang Mai

- libbitsub — WASM renderer for PGS/VobSub/DVB-SUB (Rust+TS): WebGPU/WebGL2/Canvas, workers, Range streaming, Video.js/Shaka/hls.js/React · github.com/altqx/libbitsub
- akarisub — SSA/ASS in-browser on libass: GPU fallback, Fontconfig, AES-GCM decrypt in-worker · github.com/altqx/akarisub
- rassa — experimental Rust rewrite of the ASS stack with a libass-compatible C ABI · github.com/altqx/rassa
- Also: akane (self-hosted HLS), Octodex (octodex.org), Rurushi (mini IPTV/HLS, Rust+Next.js)

Software / game localization & fansubbing · 2019–present

- Fansubbing and localization (altqx.com/alphabet-works): Dota 2, CS2/Deadlock Thai fonts, Portal: Reloaded, Kainote, Mihon, Komga

IT Support intern — Lamphun Technical College · Nov 2020–Mar 2021

- Hardware, software, networking, classroom labs, Windows/mobile support

EDUCATION

B.B.A. Digital Business Innovation — Maejo University · 2023–2025 · GPA 3.43

- Capstone lead: data-mining model to detect fake news in Thai
- Team lead, online gas-ordering app — 2nd runner-up, innovation contest
- 2.5-month exchange at National Chin-Yi University of Technology (Taiwan)

High Vocational Certificate, Digital Business Technology — Chiang Mai Vocational College · 2021–2023 · GPA 3.45

SKILLS

Rust, TypeScript, JavaScript, WASM, C/C++, C#/ .NET, Python, Next.js

WebGPU / WebGL2 / Canvas2D, libass, PGS/VobSub/DVB-SUB, HLS, Linux, Git, Bun, Docker

Thai (native) · English TOEIC 890 (Listening 475 / Reading 415, CEFR B2, Jun 2025–Jun 2027) · basic Japanese
